

## EasyMercurial - Feature #109

### Provide "Merge this branch back to parent" feature?

2011-03-18 01:53 PM - Chris Cannam

#### Description

It would be handy to have a single function on the right-button menu in history view which would merge the current revision back to the head of whichever branch was the "parent" of the current branch (when the current branch was first sprouted).

(Note, a branch can have more than one parent branch if formed from a merge.)

This is outside the scope of normal Mercurial features, so it's perhaps not entirely a good idea. Consider.
