Target version:			
Description			
Include information on which Python (and perhaps other dependencies) is needed			

History

#1 - 2015-06-15 05:53 PM - Brecht De Man

Specifically, 'print' has different behaviour across Python distributions, and I'm not sure of the SimpleHTTPServer.

On the other hand, we need to investigate if it is possible to make 'executables' that may not even require a distribution of Python to be installed, for people who want to run an experiment themselves and don't necessarily have Python, or a web server. Also for the Python scripts that take care of visualising data.
