<b>Target version:</b>			
<b>Description</b>			
Allow for a separate sample outside the scale to be provided as a reference.			

#### History

---

##### #1 - 2015-07-23 10:22 AM - Nicholas Jillings

- Status changed from New to In Progress
- Priority changed from Normal to High

##### #2 - 2015-07-23 10:36 AM - Nicholas Jillings

- % Done changed from 0 to 80

Implemented, only bug is once played, another fragment must play before the reference can be played again. GUI a bit ugly as well.

##### #3 - 2015-11-23 11:03 AM - Nicholas Jillings

- Status changed from In Progress to Resolved

##### #4 - 2016-02-15 12:39 PM - Nicholas Jillings

- Status changed from Resolved to In Progress

Ensure that ALL interfaces have an outside reference module

##### #5 - 2016-03-22 12:09 PM - Nicholas Jillings

- Status changed from In Progress to Resolved
- % Done changed from 80 to 100

Fixed in dev\_main. All interfaces support one <audioelement> with type-"outside-reference" except ABX which by definition cannot have a reference (as the test uses two references, one unknown).

The common outside reference type can now be built using interfaceContext.outsideReferenceDOM() function for third party interfaces.
