

Web Audio Evaluation Tool - Bug #1510

'Outside reference' stays active and present between pages

2015-12-21 12:00 PM - Brecht De Man

Description

When the outside reference is last played, i.e. it is red, when submitting, it is still red in the following page - where it is not even supposed to be.

So probably only an issue where one page has an outside reference and the next one doesn't (like in the demo project, which is where I spotted this).
