Description

Hi,

I was wondering if it's possible to contribute to this repo? If so, how? I can't find how to fork it.

Hi,

you can clone this repo using mercurial

hg clone https://code.soundsoftware.ac.uk/hg/beaglert

be aware though that our plan is to tidy up soon and move to, perhaps, github for the official release.

Giulio

Thanks! Can I just clone and push? AFAIK this won't work as I don't have write-access to this repo..

And yes, moving to Github would be awesome!
