Web Audio Evaluation Tool - Bug #1590 Test builder for AB or ABX is broken

2016-02-20 02:49 PM - Giulio Moro

	Resolved	Start date:	2016-02-20
Priority:	Urgent	Due date:	
Assignee:	Nicholas Jillings	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:			
Description			
Both in the default a	nd Dev_main branches.		
APE creation works	fine, but AB and ABX gets stuck w	when I press the "next" button in the	e last dialog. I tried both leaving only the
default checkboxes	or unticking all the checkboxes.		
Using python 2.7.10	to run the server on localhost on I	MacOS El Capitian	
Steps to reproduce t	•		
·	lhost:8000/demo.html		
- click "Next" on t			
	or "ABX" interface in the "Select ye	-	
	he "test checks and restriction" and		
		bg. Click "Next" here and the page	will hang indefinitely until Chrome displays
the "Aw Shap some	thing went wrong" page		
the server loa up to	this point will look like this:		
0 1	'

History

#1 - 2016-02-20 05:17 PM - Nicholas Jillings

This is a very strange bug, and I have experienced it myself. If the browser console is open it seems to work, likewise stepping through the code does not cause this issue. Preliminary diagnosis indicates a severe memory leak.

#2 - 2016-02-20 05:51 PM - Giulio Moro

I have encountered this error systematically, regardless of the fact that the console was open or closed.

#3 - 2016-02-22 12:28 PM - Nicholas Jillings

- Status changed from New to Resolved

Fix in dev_main. Caused by re-using same index in nested loop. Would be triggered if the last metric option was not selected. Memory leak caused by generating Metric Object repeatedly.
