

Web Audio Evaluation Tool - Bug #1595

Test_create: 'Interface' in 'Page' defaults to blank; not editable

Description

Specifically, in the case of 'Likert', when going to 'Edit Scales/Markers', the position/text list is empty. When selecting another scale, and then going back to the default 'Likert', the scale markers appear.

Furthermore, it does not seem possible to add/remove position/text pairs? It would seem customisation (not just selecting one of 7 standard interfaces) is desirable here.

Yes, this is still WIP. It initially has no markers, and the drop down will allow you fill with a preset.

- Status changed from New to Resolved

- % Done changed from 0 to 100

You can add/modify/delete marker pairs as desired.
