Web Audio Evaluation Tool - Bug #1618
AB interface comments are not saved

2016-02-21 08:22 PM - Giulio Moro

Status:	Resolved		**Start date:**	2016-02-21

Target version:				

Description

when in AB interface the following happens:

 - comments of pages after the first one are added at the bottom instead of replacing comments from the previous page, so that, e.g.: after 4 pages you have four copies of the comment boxes, each retaining the text you previously input.

 - comments are not saved in the xml output file.

  Attached the xml file used for the test.

History

#1 - 2016-02-22 12:34 PM - Nicholas Jillings

- Status changed from New to Resolved

This was fixed in default, now merged into dev_main. Fixed.

#2 - 2016-02-22 06:22 PM - Giulio Moro

 - comments of pages after the first one are added at the bottom instead of replacing comments from the previous page, so that, e.g.: after 4 pages you have four copies of the comment boxes, each retaining the text you previously input.

this is still outstanding, creating a new issue for it
