Target version:				

Description

and fails when no <surveryresult> element exist
from analyse.html:

```
root = xml.getElementsByTagName('waetresult')[0];

// get subject ID, add to array if not already there
pretestSurveyResult = root.getElementsByTagName('surveyresult')[0];
subjectID = pretestSurveyResult.getElementsByTagName('comment')[0];
if (subjectID){
    if (subjectID.getAttribute('id')!='sessionId') { // warning in console when not available
        console.log(xmlFiles[fileIndex]+': no SessionID available');
    }
    if (subjectArray.indexOf(subjectID.textContent) == -1) { // if not already in array
        subjectArray.push(subjectID.textContent); // append to array
    }
}
```

Analyse.html will be completely rewritten because there are a lot of things wrong with the way it operates. Plus it should be server agnostic.
