Sonic Visualiser - Bug #1755
Check spectrogram / 3d plot layer gains for various normalisations

2016-11-30 02:39 PM - Chris Cannam

Status:	New		**Start date:**	2016-11-30

Target version:				

Description

Need to check that the default gain levels are (a) consistent with older versions of SV and session files saved from them and (b) consistent when built into Tony with older versions of that app and its session files.

And also (c) that they look nice as defaults.
