### Description

Hi,

I'm using qtbase5-dev 5.3.2+dfsg-4+deb8u2 from debian's jessie, and there is no QStandardPaths::AppDataLocation there yet.

The following patch helped:

```
...  
#if defined(AppDataLocation)  
    return QStandardPaths::writableLocation(QStandardPaths::AppDataLocation);  
#else  
    return QStandardPaths::writableLocation(QStandardPaths::DataLocation);  
#endif  
...
```

cheers, piem
