Target version:			
Description			
(code hygiene)			
Make use of the C++11 "override" keyword - it's a valuable one. We use it in a few places but it's more valuable the more pervasively it gets used.			

History

#1 - 2018-11-21 03:16 PM - Chris Cannam

- File build.log added

Attached is a build log run with the -Wsuggest-override flag, as a starting point.
