

Tony: a tool for melody transcription - Bug #1911

File exports should default to CSV

2019-09-06 10:50 AM - Chris Cannam

Target version:			
Description			
File exports currently have "Any file" as the default - then if you don't supply an extension, you get .svl.			
I think the default option should be "CSV file" (with other possibilities elsewhere in the menu).
