#### Description

Just had a segfault on the Mac in EventVector::getEventsWithin() immediately after opening an audio file.

Unfortunately I didn't keep the trace and haven't been able to reproduce it yet.

- Subject changed from Occasional crash in @getEventsWithin@ to Occasional crash in getEventsWithin

##### #2 - 2019-11-22 01:52 PM - Chris Cannam

- Status changed from New to Closed

I believe the various thread-safety fixes in the last few months should have nobbled this; closing unless and until it happens again.
