Sonic Visualiser - Bug #1949
Layer synchronisation not working in Edit Layer Data dialog

2019-10-14 12:44 PM - Chris Cannam

Status:	New		Start date:	2019-10-14
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:			**Estimated time:**	0.00 hour
Target version:				

Description

1. Open an audio file
2. Add a Regions layer
3. Add some regions
4. Open the layer data editor
5. Select a region in the main pane

Expected behaviour: Region is highlighted in the data editor
Observed: Nothing happens in the data editor

History

- Priority changed from High to Normal

This was a misunderstanding on my part. The dialog is not supposed to synchronise when you select an item in the layer - it's supposed to synchronise when you scroll the layer, if the "playback sync" toggle is switched on.

So it's not a bug, but it might be a poor design?
