

Sonic Visualiser - Bug #1960

Blank lines in CSV files are imported as null events

2019-10-31 02:37 PM - Chris Cannam

Status:	Closed	Start date:	2019-10-31
Priority:	Normal	Due date:

Target version:			
Description			
If a CSV file has blank lines in it - we just had an example with a blank line between all rows of data - then SV will "import" those lines as empty, default events. It should ignore them.
