SoundSoftware Code Site - Feature #256
show stats about private projects

2011-08-09 07:18 PM - Chris Cannam

Description

Currently private projects are totally omitted from e.g the Latest Projects list (and this is the way it should be, of course). But it might be worthwhile to show e.g. the number of private projects registered during the last however-long... I'm not quite sure of the details, but having something that says "plus X private projects" might be encouraging for prospective users.
