

SoundSoftware Code Site - Bug #265

Roadmap appears in menu even if meaningless, when versions are defined

Description

Whenever a project has at least one "version" defined, the Roadmap entry appears in its project menu -- even if there is nothing to show for it (e.g. <https://code.soundsoftware.ac.uk/projects/lots/roadmap>).

We should either be more discerning about when to show this, or make it switchable in the settings.
