

SoundSoftware Code Site - Bug #322

Feature # 14 (New): tags for projects

Pagination broken in projects list

2011-11-11 04:21 PM - Chris Cannam

<b>Status:</b>	Closed	<b>Start date:</b>	2011-11-11

<b>Target version:</b>			
<b>Description</b>			
<p>The project list no longer paginates correctly -- the pagination links at the bottom are correct (or at least plausible) but the list itself now contains all projects all of the time.</p> <p>Clicking through to a second "page" just reveals another page of all the same projects.</p>

- Assignee changed from Luis Figueira to Chris Cannam

Addressed in commit:b2a9e64b8283 but not in a sustainable way. This commit patches the Redmine's Core. Unfortunately looks like it's not possible to override the Projects controller's index action:

[http://www.redmine.org/projects/redmine/wiki/Plugin\\_Internals?version=1](http://www.redmine.org/projects/redmine/wiki/Plugin_Internals?version=1)

Any ideias on how to fix this in a clean way?

#2 - 2011-11-15 10:49 AM - Chris Cannam

Confirming that the current fix/hack does in fact work.

The Project controller index method is just a method, and methods can be unhooked and replaced... can't the index method just be aliased?

#3 - 2011-11-15 03:15 PM - Luis Figueira

Aliased the index action in the plugin's Project Controller Patch (see commit:dd33798e514d).

#4 - 2011-11-18 11:28 AM - Chris Cannam

- Status changed from In Progress to Closed

Fix confirmed, but see also #337.
