

SoundSoftware Code Site - Bug #330

Feature # 14 (New): tags for projects

Tag autocomplete in project filter area should _not_ have Add New...

2011-11-15 11:10 AM - Chris Cannam

| Description | | | |
| <p>When you're filtering on tags, you never want to add a nonexistent tag -- do you?</p> <p>So the autocomplete menu probably should not have an Add New... function in it at all (if that's practically possible). In fact we should ideally prevent people from adding any tag that isn't an autocomplete result, but again that might not be trivial to do.</p> | | | |

History

- #1 - 2011-11-17 10:48 PM - Luis Figueira
- Status changed from New to Feedback

- Assignee changed from Luis Figueira to Chris Cannam

Fixed in commit:c118d3389088.

- #2 - 2011-11-17 11:36 PM - Luis Figueira
- Parent task set to #14
