

EasyMercurial - Bug #358

Remote location shows meaningless URL if a non-URL was previously given

2012-01-23 01:40 PM - Chris Cannam

Status:	Closed	Start date:	2012-01-23
Priority:	Normal	Due date:	
Assignee:	Chris Cannam	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:	1.2		
Description			
Mark P:			
"If I set a bad remote location "Foo", when I go to "Set Remote Location" to set a proper one, I get "C:/Program Files (x86)/EasyMercurial/Foo" as the default location to set. Not a useful default?"			

History

#1 - 2012-02-29 10:40 AM - Chris Cannam

- Status changed from New to Closed
- Target version set to 1.2

Default is now empty (we can't guess it anyway).
