SoundSoftware Code Site - Bug #535
Activities list not showing all activities

2012-11-06 08:52 PM - Chris Cannam

Status:	New		Start date:	2012-11-06
Priority:	High		Due date:

Target version:				

Description

Some activities seem to be missing from the data returned by the activities controller.

For example, my activity page for three months up to the start of Oct 2012 should include my commits to the cepstral-pitchtracker project during September. But it doesn't.
