SoundSoftware Code Site - Bug #553
Needs to be possible to identify private->public changes

2012-11-23 09:02 AM - Chris Cannam

Status:	New	**Start date:**	2012-11-23
Priority:	High	**Due date:**	
Assignee:	Luis Figueira	**% Done:**	0%
Category:		**Estimated time:**	0.00 hour
Target version:			

Description

When a project is changed from private to public, we'd like to know about it -- ideally we'd then show the project in an active projects list again, or even in the Recent Projects list.

As it stands, it's a bit disappointing when you have a project you've just prepared to reveal to the world, and you switch it on and -- nothing. Nobody knows it's there.

History
