SoundSoftware Code Site - Bug #569
"Activity in My Projects" shows publications added to other peoples' projects too

2013-01-23 11:40 AM - Chris Cannam

Description

Thanks to #540 we now have publications listed in Activities.

But there doesn't appear to be any discrimination by project -- if a publication is added to a project and I have visibility of that project, I will see the publication in my "Recent Activity in My Projects" list even though it's not one of my projects.

History

#1 - 2013-01-23 11:42 AM - Chris Cannam

I see there is a line intended to handle this, at vendor/plugins/redmine_bibliography/app/views/activities/_recent.html.erb:20:

```
e.projects.map {|p| user.member_of? p }
```

#2 - 2013-01-23 11:47 AM - Chris Cannam

Should be

```
e.projects.map {|p| user.member_of? p }.any?
```

Fixed in commit:8675fa03326d
