

## SoundSoftware Code Site - Bug #570

### Can't delete downloadable file from version in project with no issue tracker

2013-01-29 10:15 AM - Chris Cannam

<b>Status:</b>	New	<b>Start date:</b>	2013-01-29
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>		<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>			

#### Description

If a project has a file for download, and that file is associated with a version within the project, and the project does not have the issue tracker module enabled, then the file cannot be deleted, not even by an admin user.

This is because:

in acts\_as\_attachable.rb

```
def attachments_deletable?(user=User.current)
  (respond_to?(:visible?) ? visible?(user) : true) &&
  user.allowed_to?(self.class.attachable_options[:delete_permission], self.project)
end
```

i.e. first test if the version is visible to the user, but in version.rb

```
def visible?(user=User.current)
  user.allowed_to?(:view_issues, self.project)
end
```

which only succeeds if issues are enabled.

#### History

#1 - 2013-01-29 10:17 AM - Chris Cannam

(It's interesting that the version returning false for "visible?" does not actually seem to prevent anyone from **seeing** the version.)
