SoundSoftware Code Site - Bug #6
Mercurial checkout URL not displayed

2010-08-25 12:18 PM - Redmine Admin

Description

The repository settings gives no option to show or adjust the Mercurial checkout URL (as I would expect of Redmine). Is this just because we have a slightly older base version here? Check this.

OK, I had forgotten that this was provided by the Checkout plugin (not Redmine itself). Installed the plugin. Still one problem -- it shows a "translation missing" error when user is not in US locale. (Why I wonder does it show an error, rather than just defaulting to the US string?)

Grrgrgh.

Updated Checkout plugin does not work:

    ActionView::TemplateError (undefined method `merge' for #<Array:0xae3056c>) on line #31 of
    vendor/plugins/redmine_checkout/app/views/projects/settings/_repository_checkout.rhtml:
    28: <% javascript_tag do %>
    29:    protocolForm = new Subform(
    30:    '<%= escape_javascript(render(:partial => "projects/settings/repository_checkout_protocol", :locals => {:protocol =>
    Checkout::Protocol.new({:protocol => form.object.scm_name, :append_path => form.object.allow_subtree_checkout? ? 1 : 0, :repository =>
    form.object})})) %>',
    31:    <%= form.object.checkout_protocols.length %>,
    32:    'checkout_protocol_table'
    33:    );
    34: <% end %>

I haven't time to investigate this at the moment, but have removed the plugin from the live site.

#4 - 2010-08-26 10:18 AM - Chris Cannam

Not a proper update but just a note: we are tracking Redmine trunk until Yuya's Mercurial overhaul patches are merged:

http://www.redmine.org/issues/4455

When these have been merged, we should stop tracking the trunk at the next subsequent stable release.

#5 - 2010-09-29 05:18 PM - Chris Cannam

- Status changed from In Progress to Closed

- % Done changed from 20 to 100

Fixed with trunk update, db:migrate, db:migrate_plugins.
