

SoundSoftware Code Site - Bug #600

Cannot add tags with spaces in them

2013-06-21 10:29 AM - Chris Cannam

Status:	New	Start date:	2013-06-21
Priority:	High	Due date:

Target version:			
Description			
<p>Tags can have spaces in them, and some reasonably well-used ones do (e.g. music representation). And it's possible to add an <i>existing</i> tag with a space in it. But the new tag-adding interface doesn't allow you to type a space, so you can't create a new tag with a space in it...</p>
