SoundSoftware Code Site - Bug #7
home page title needs to be distinguishable in CSS

2010-09-10 02:57 PM - Redmine Admin

Target version:				

Description

The h1 title on the home page (soundsoftware.ac.uk) needs to have a different CSS class from those for project pages, so we can treat it appropriately.

History

#1 - 2010-09-15 10:18 AM - Chris Cannam

- Status changed from New to Closed

- % Done changed from 0 to 100

Done -- the enclosing div now has header-project or header-general class depending on the context.
