

## SoundSoftware Code Site - Bug #763

### Author search searches by email, when it probably shouldn't

2013-10-07 03:45 PM - Chris Cannam

<b>Status:</b>	Closed	<b>Start date:</b>	2013-10-07

<b>Target version:</b>	Bibliography Beta		

#### Description

When adding an author to a publication, the text you enter in the Name field is used as a search term against the email field as well as name. This leads to undesirable behaviour such as the letters "ac" matching everyone with a UK academic email address.

Probably it should search name fields only.

Related to #576 *"Search by name" actually searches by email address.*
